

IEEE group visit to Hyperloop technologies

10AM April 16th 2016

2161 Sacramento St, Los Angeles, CA 90021

HYPERLOOP

If you sign up you will be provided with an NDA agreement the day before to sign and bring with you

We will park on Sacramento Street adjacent to #2161 at 10AM.

Hyperloop is planning a new transportation system involving moving pods containing cargo and/or people down an evacuated tube at speeds that will make possible a journey from LA to San Francisco in about 30 minutes. Our visit will entail:

1) Introduction to Hyperloop technologies

1 hour campus tour, including: Route analysis lab, Tube lab, Engineering facilities, Test and Development Lab, Review of Propulsion Open Air Test

2) Technology Discussion
