UNIVERSAL ROBOTS

INVITATION - OPEN HOUSE

We're delighted to invite you to our Open House event **Wednesday July 13, 9am ~ 4pm**, celebrating our new office and training facilities at **101 Pacifica, Suite 350, Irvine, CA 92618**. Stop by any time during the day to meet Universal Robots' local staff, our distribution partner in Southern California, Numatic Engineering, - and of course our main attraction; the complete lineup of collaborative UR robots. If you haven't already had a chance to interact with a UR cobot, now is your chance to become a robot programmer in two minutes flat.

You also get to experience UR robots in two metrology scanning applications from Irvine-based 3D Infotech, showcasing how easy it is for an operator to teach the robot to scan parts - even complex geometry.

Lunch is served from 11am ~ 1pm, with snacks and beverages throughout the day. Every half hour, we raffle off exciting prizes, so there's a good chance you'll walk away a winner.

Simply RSVP by sending an email to jya@universal-robots.com with CONFIRM in the subject line. We can't wait to see you.

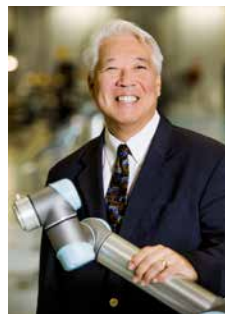

Come see how 3D InfoTech's Universal Metrology Automation® solution completes the entire inspection process including scanning, analyzing and reporting at the push of a button.

Kind regards,

Craig Tomita
Area Sales Manager, West
